

## **Mary Burmeister-Jin Shin Jyutsu® Outreach 2010 Update**

The Mary Burmeister-Jin Shin Jyutsu Foundation and Outreach was founded in 2001. The purpose is to expand the work of Mary Burmeister and the Art of Jin Shin Jyutsu Physio-Philosophy through contributions that support medical research; educational development that creates different avenues of presentation including language translations, implementation of scholarships that base selection on merit, need, or minority status; selection of individuals to receive Jin Shin Jyutsu treatments; financial support for Jin Shin Jyutsu associations, seminars, correspondence courses and outreach programs to developing countries.

The first US Jin Shin Jyutsu Self Help prison classes began in the summer of 2010. Self help classes are taught bi-weekly to prisoners at the Bay Correctional Complex in Panama City, Florida who participate in the Canine Development Program for approximately one year and are funded by donations from the Mary Burmeister-Jin Shin Jyutsu Outreach. The dogs live with and are trained by the prisoners for search and rescue and bomb sniffing and after one year will be given to the US government. Continued class support was given to Latvia's second 5 day basic seminar. Tuition assistance was provided for qualified grant applicants in these countries: Salzburg, Austria, Eastleigh, Hants and Redhill, England, Riga, Latvia in the US: Scottsdale, AZ, Berkeley, Marina Del Ray, Mount Shasta, Santa Barbara and Santa Rosa, CA, Boulder, CO, Boston, MA, Kansas City, MO, Morristown, NJ, Dallas, TX, Louisville, KY, Portland, OR, Greenville, TN, New York, New York, Brattleboro, VT, Green Bay and Richland Center, WI.
